Cape Town

SCOPE OF SUPPLY

A glance at our core business

Ennero's group structure is **driven by four commercial groups** which are **strategically supported by corporate functions**.

Ennero's core business is physical commodities trading and logistics solutions. Our experience and resources complement and enhance these activities.

Our Core Activities.

① CARGO TRADING

Sourcing product from global producers, Ennero adds value by blending and storing for market optimization and performance flexibility.

② MARITIME SUPPLIES

Through an extensive global supply network, operations and risk management, Ennero supports clients by optimizing strategic fuel procurement.

③ DOWNSTREAM DISTRIBUTION

Integrating ourselves into operations, Ennero ensures quality and security of supply, allowing our clients to focus on their core competencies.

④ SPECIALTY PRODUCTS

With access to specialty petroleum and petrochemical products, Ennero routes products from places where they are plentiful to where they are most needed.

01

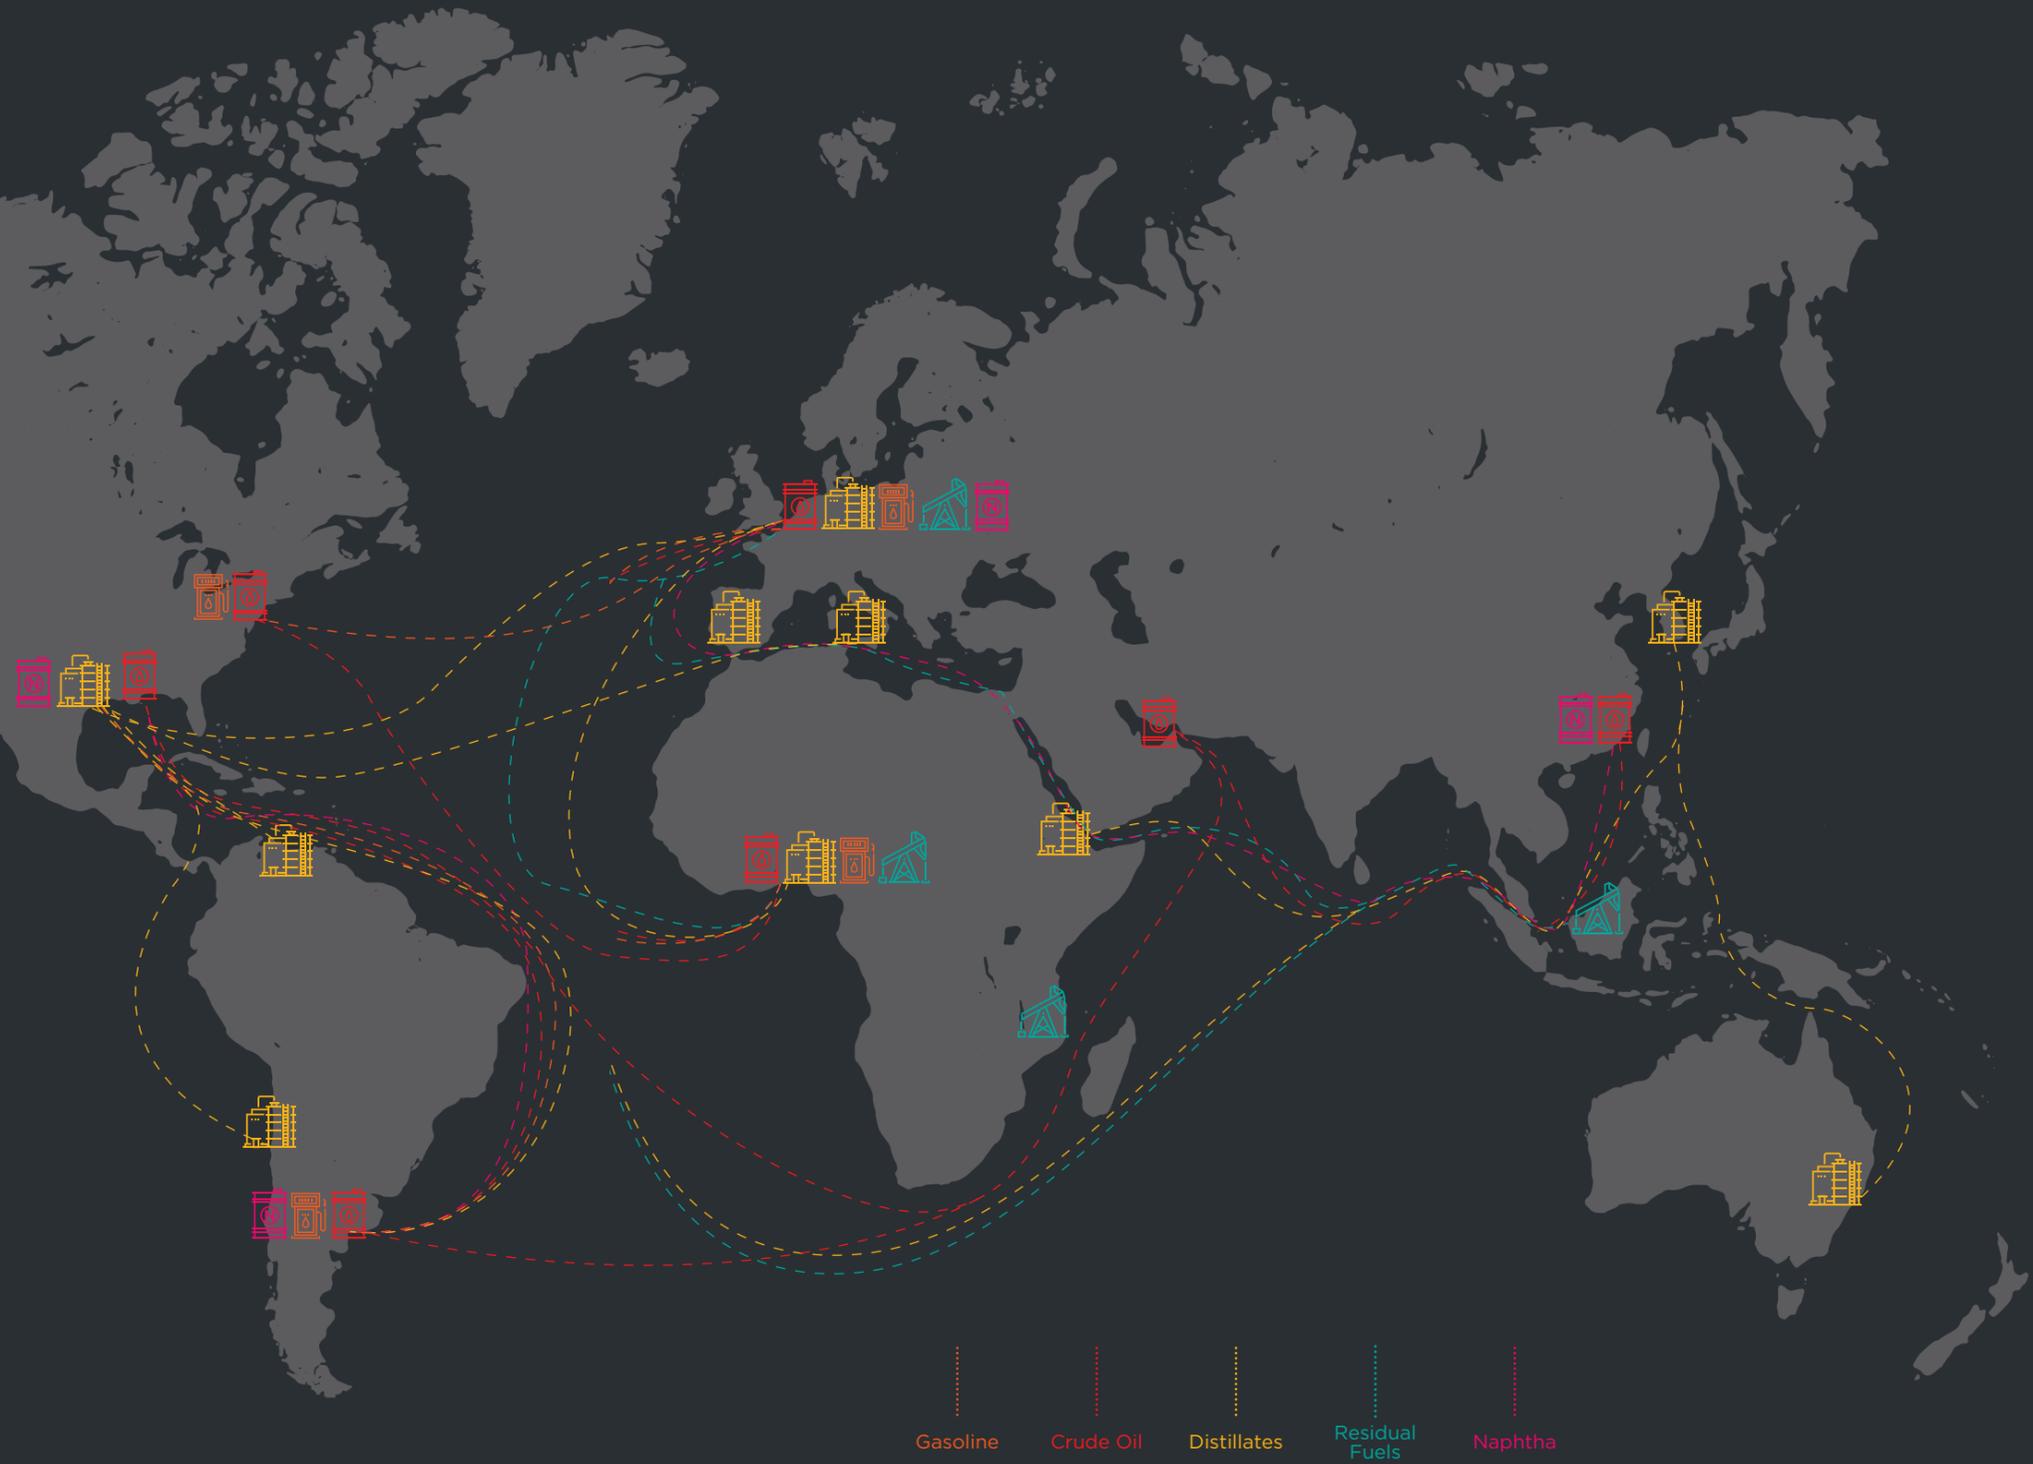

GLOBAL PRESENCE

Ennero's cargo trading division

Ennero's Cargo Trading Division **creates value** by turning intrinsic movements in global markets into opportunities.

By trading globally with reliable partners, holding proven track records, combined with our own strategies and performance, we strive to shape the energy landscape in emerging markets.

“Global trade dynamics are driven by ever changing economic and political elements that alter supply and demand constraints. Ennero captures arbitrage opportunities by forecasting market imbalances and mitigating risk through a calculated approach”

Gasoline Crude Oil Distillates Residual Fuels Naphtha

02

MARITIME FUEL SUPPLIES

Fueling the sea trade

PAYMENT TERMS AND FLEXIBILITY

Assisting clients with Cash Flow and the ability to provide a variety of floating and fixed pricing terms.

INCREASING FOCUS

Vessel: Container vessel
Supply Port: Singapore
Product: 550mt HFO 380cst by Barge
Next Port: Hong Kong

Vessel: Bulk Carrier - Coal
Supply Port: Richards Bay, South Africa
Product: 698 HFO 380cst by ex-pipe
Next Port: Kandla, India

Vessel: Ro-Ro Vessel
Supply Port: Fujairah, UAE
Product: 500mt HFO 180cst by Barge
Next Port: Sohar, Oman

Vessel: Offshore supply vessel
Supply Port: Musaffah Port
Product: 300mts MGO by truck
Next Port: Offshore Oil Platform

Vessel: Oil Tanker
Supply Port: Gibraltar
Product: 350mt HFO 380cst by Barge
Next Port: Lagos, Nigeria

03

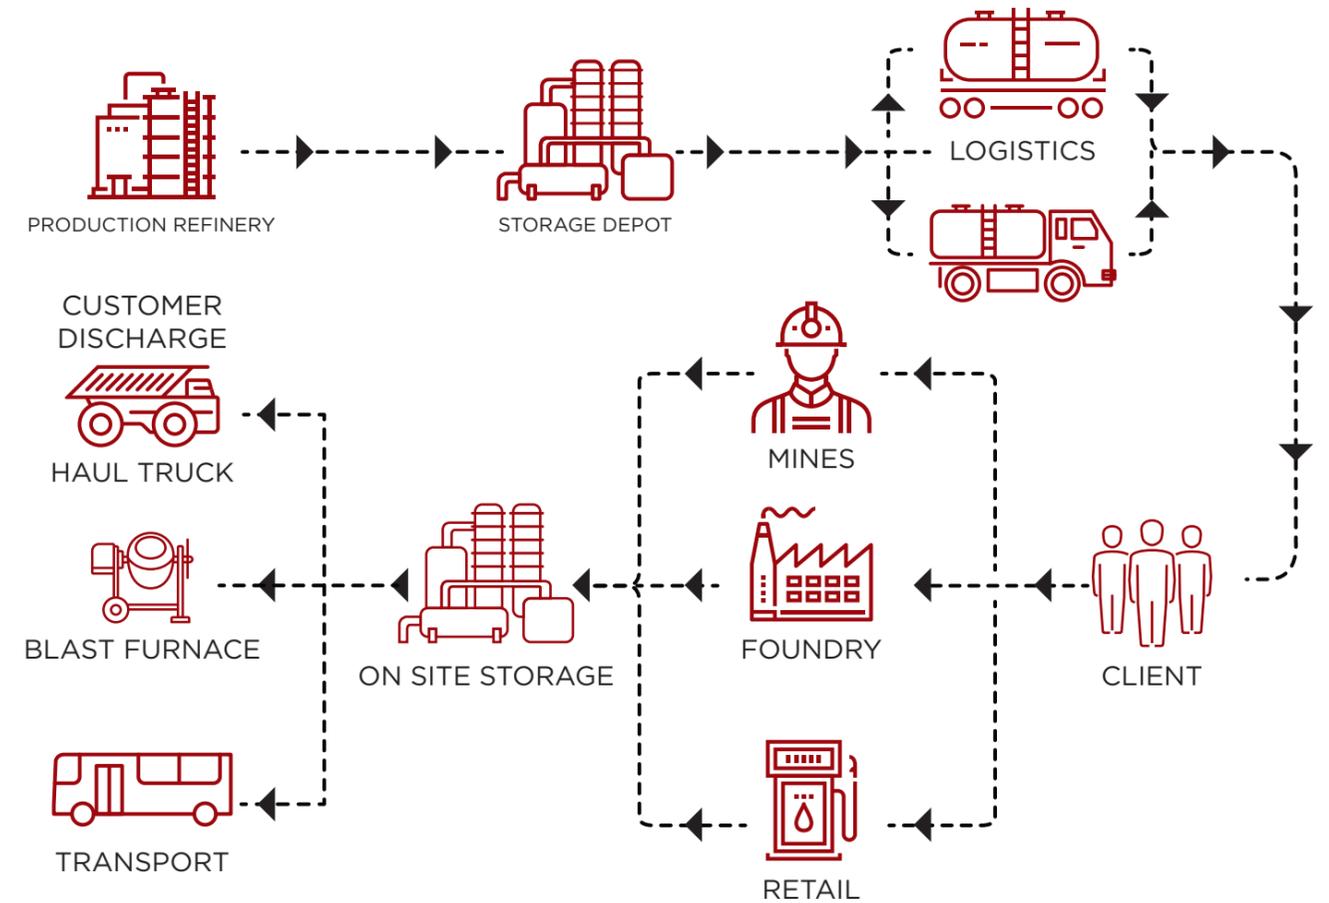

DOWNSTREAM DISTRIBUTION

Ennero's downstream capabilities

We believe in custom built solutions tailored to our clients needs.

Ennero provides unique downstream distribution solutions to clients across heavy industries, logistics, mining and metals operations. Ennero has the capability and expertise to step in at various points along the downstream distribution value chain in these industries.

OUR GUIDING PRINCIPLES

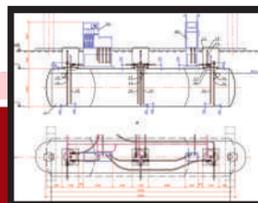

Case Study

Revamping outdated mining assets in South Africa under a BOT (Build, Own, Transfer) turnkey solution.

SITE INSPECTION & AUDIT

Audit revealed numerous HSE non-compliance and operational concerns pertaining to safety stock.

FIT FOR PURPOSE DESIGN

Ennero engaged stakeholders to propose tank storage option which were fit for purpose current mining operations and allowed to production expansion.

COMMISSIONING

Ennero commissioned 4 self bunded storage tanks within 8 weeks. On site storage increased by 50% along with addressing all HSE concerns.

FUEL MANAGEMENT

A fully integrated Fuel Management System was included in the storage package. This drove to lower pilferage occurrences and allow for proper forecasting.

REPORTING

Leveraging the new assets and through big data findings Ennero was able to drive savings of c.4% in year 1 by managing demand, working capital requirements and reducing dependency on staffing.

04

SPECIALTY PRODUCTS

Ennero's portfolio of niche products and commodities

Ennero's Specialty Products Division **specializes in sourcing niche products and commodities** that drive human development, technology and connectivity.

Using our expertise in global logistics, we then find effective ways to supply these products to our customers and clients in all corners of the globe.

“When it comes to specialty products, we are driven by the need to get products from where they are plentiful to where they are needed most.”

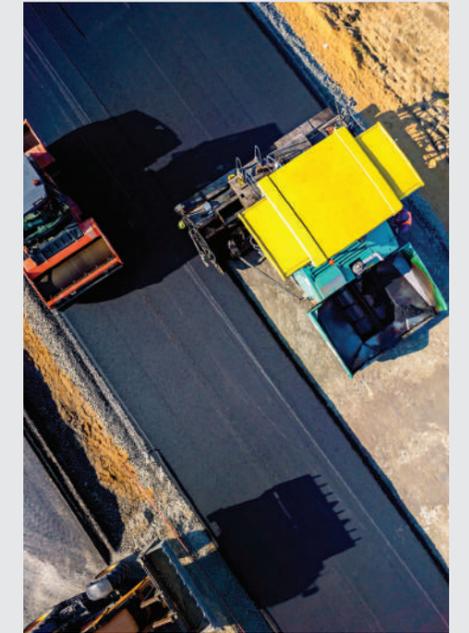

Agriculture

As the earth's population grows, the Agriculture industry's need will grow even further. At Ennero we are driven by the need to supply the growing future needs of this industry. We source quality with the reliability to deliver for the cyclical and seasonal needs.

Mining

Mining is required to obtain materials that cannot be grown through agriculture, or created in a laboratory or factory. Ennero has created a natural synergy with our mining clients which has spawned the group's ability to package, ship and supply the products we help extract, and bring to life.

Infrastructure

The future is driven by the need to connect humans, in rural and urban areas. Ennero understands the importance of supplying reliable and technically proven products that support the infrastructure industry and proven to have passed the test of time.

Manufacturing

The manufacturing industry has historically been and will continue to be a driver for globalization. Being a cyclical industry, Ennero takes a long term view the raw materials supply and demand balance can present opportunities. At Ennero, we research, predict, source and fill that gap, efficiently and promptly, while maintaining the status quo for our clients.
